I have been informed that due to my occupational exposure to animals, I may be at risk of acquiring a zoonotic, allergic or animal related disease.

I should contact my primary care provider for any concerns.

If at any time I become an OSU employee and continue to be involved in animal handling I will need to enroll in the OSU Animal Exposure surveillance program which provides early detection, diagnosis and treatment of animal related illnesses.

I have reviewed the OSU Animal Exposure Occupational Health and Safety Program and read the information on zoonoses on the OSU website: <http://oregonstate.edu/ehs/bio/animal-handler>
